TRANSPORTATION MANAGEMENT

FIELD-READY EXECUTION

COMPANY OVERVIEW

**Plan with discipline.
Operate with control.**

Metro Transportation Management & Design, Inc. connects transportation planning, operational leadership, field coordination, and responsive execution under one accountable team. MetroTranspo supports government agencies, public institutions, prime contractors, venues, campuses, and complex commercial operations.

CORE COMPETENCIES

Integrated operating support

- Transportation operations and management
- Transportation consulting and implementation planning
- Traffic control, flagging, and directional personnel
- Event transportation and venue operations
- Parking operations and management
- Logistics and special-project coordination

OPERATING APPROACH

Accountability from plan to closeout

- Mobilization and workforce deployment
- Field supervision and escalation protocols
- Safety-focused vehicle and pedestrian movement
- Agency, stakeholder, and vendor coordination
- Quality control and performance reporting
- Contingency planning and real-time response

WHY METROTRANSPPO

Management decisions that work in the field

PLAN + OPERATE

Planning discipline connected directly to mobilization, supervision, and daily execution.

PUBLIC + PRIVATE

Government accountability combined with private-sector speed, flexibility, and service focus.

RESPOND + IMPROVE

Visible field leadership, clear communication, escalation, and continuous operating improvement.

OPERATING ENVIRONMENTS

Coordinated movement wherever the mission happens

Government agencies
and institutions

Roadways and
traffic-control zones

Venues, campuses,
and major events

Logistics sites and
parking facilities

RELEVANT EXPERIENCE

Commercial logistics traffic, flagging, event traffic control, and parking operations; verified details available when authorized.
